Filed: December 30, 2004  
For AUTHORIZATION CODE RECOVERING METHOD

Dear Examiner Coppola,

I've attached proposed amendments for our interview today at 3:30 EST. These amendments are intended to address the 112 issues raised in the last Office action. In particular, I'd like to discuss whether the change to claim 34 addresses the issue you raised, as well as whether the change to claim 43 addresses the 112 issues raised with respect to it. I would then like to discuss the obviousness rejection of claim 43 and explore with you whether there are any additional amendments that might be made to overcome the rejection.
